

The governor's budget is just the first step in what will be a lengthy, and likely contentious debate. The budget will be subject to much discussion and many changes along the way as legislators come up with a plan Alaska can afford.

As the legislature develops the budget, I will continue working with my colleagues to fund those programs and services critical to District P. With a collaborative approach, we can make sensible budget reductions but still fund education, ferry service, road maintenance, public safety and a sustainable Permanent Fund Dividend (PFD).

### **Let Me Know What You Think**

Your input matters to me. Please keep in touch on the budget and the many other issues coming before the legislature. If your time allows, I encourage you to add your comments to the record when bills and resolutions come before committees. The Legislative Information Office (LIO) near you will have more information on the committees' schedules throughout the session.

### **New Legislation**

Among the legislation I have introduced this year is SB 25, which extends the state's salmon and herring product development tax credit, which is set to expire this year. The bill also proposes offering similar tax credits for value-added processing in the pollock and cod industries.

I sponsored the original bill creating the Alaska Salmon Product Development Tax Credit in 2003. The program is attributed as a major factor in the increase in commercial value of Alaska salmon. Successful legislation in 2014 extended the salmon tax credits and expanded the program to include tax credits for herring value-added processing.

I am also sponsoring SB 136, which would allow tribes to operate public schools through education compacts with the state. The bill as written is just a step in the process of developing compacts. I hope to bring together educational professionals and tribal leaders to see if there is a way to do this that benefits the students.

The bill language would require the schools would have to follow most state education laws. The schools would be open to any student, but once they reached capacity, they could prioritize enrollment of tribal members. The schools could also give employment preference to tribal members.

Please contact my office with any questions you may have on SB 25, SB 136 or any other legislation I sponsor.

### **The Senate District P Staff**

Once again, my Capitol office is staffed by talented, hardworking individuals. All of them have many years of experience with our Senate District.

Tim Lamkin is back for a fourteen session with my office. He will serve as the Aide to the Senate Education Committee, as well as work on personal legislation and other duties.

Doug Letch is in his twentieth year in the office. He will again be working on constituent concerns and communications, following the Senate Health and Social Services Committee, work on my personal legislation and handle scheduling.

Katrina Matheny is also back for a twentieth year with my office. Among her many roles is serving as Aide to Leg Council and tracking the budget.

You can reach us in Juneau at 1-800-821-4925 or (907)465-4925.

Additionally, Teri Robl will be in Senate District P's Homer office throughout the year. She is available to help you with any matters involving state government. You can reach Teri at (907) 235-0690.

Please do not hesitate to contact me or my staff if we can be of assistance to you with matters involving state agencies.
